

What Makes Our *Extreme Heat Pad* Unique?

The pad's unique shape molds to the person's body when heated further adding to the overall effectiveness.

Pad dimensions, 16.0" w x 10.5" h.
Weight, 2 lbs, 15 oz.

Seven separate sections provides even distribution to the body when heated .

Adjustable, removable straps provide continuous heat retention.

Durable denim fabric provides intense heat.

Patented "kick stand" flip feature holds pad upright when sitting and also serves as a stabilizer for the overall shape.

Washable Pad Covers

Baby Blue

Carnation Pink

Lavender

The *Extreme Heat Pad* is designed for intense, direct heat to the pelvic region. The denim cloth is highly concentrated to hold and retain extreme heat in as little as 2 minutes (microwave temperatures vary). To provide a soft barrier and reduce heat, a pad cover is recommended. **CAUTION:** Consult with your physician before applying extreme heat to body.

NOTE: Pending design patent sold under the trademark name of *EndoFEMM™*
